

NEW PRODUCT RELEASE

For owners of GM's iconic 'A-Body' muscle cars, including the Chevelle, Cutlass/442, Skylark/GS and LeMans/GTO, Flowmaster proudly introduces the last exhaust your high-horsepower classic will ever need. Part number 817200 is a 409S stainless steel Header-back American Thunder exhaust system, featuring our legendary Super 40 Series mufflers and full 3.00" mandrel-bent piping throughout. With a welded H pipe assembly and rear exiting tailpipes, this system provides an aggressive performance tone both inside and out, as well as the performance gains you expect from Flowmaster. Protected by a Limited Lifetime Warranty, this exhaust is manufactured entirely in the USA and comes complete with all necessary hardware and detailed instructions for an easy at home or professional installation.

- Stainless Steel Construction
