

NEW PRODUCT RELEASE

Owners of the 1997-2004 C5 Corvettes have a final answer for their performance exhaust needs. Flowmaster proudly introduces our new 409S stainless steel Force II system, part number 817517. Featuring specially-engineered 80 Series mufflers, this American-made bolt-on exhaust provides a moderate exterior sound, while maintaining a mild interior tone. As expected from Flowmaster, the system provides improvements to horsepower, torque and fuel mileage, while remaining 50-state emissions legal. At the back, polished, Flowmaster-embossed 'quad' tips provide a finished look. As with all Flowmaster exhaust systems, fully detailed instructions and all necessary hardware make installation easy for the do-it-yourselfer or the professional, and our Limited Lifetime Warranty provides assurance of the highest quality product possible.
