

For owners of Ford's popular 2010 V6 Mustang, Flowmaster proudly introduces our newest 409S stainless steel Cat-back dual exhaust system. This Force II system, part number 817518, features all mandrel-bent 2.25" piping with our patented Scavenger X-pipe and specially-built 60 Series Delta Flow mufflers for a mild interior sound, with a sporty, yet mild tone outside. Carefully engineered on the car for a precise fit, this system maintains 50-state emissions legality while providing the performance and efficiency gains you expect from Flowmaster. Polished, embossed 3.50" stainless tips provide a finished look to the back of the car. With detailed step-by-step instructions and all necessary hardware included, this completely bolt-on exhaust is designed for easy at-home or professional installation, while the Limited Lifetime Warranty assures you that this will be the last exhaust your V6 Mustang will ever need.

- **Stainless Steel Construction**
- **Specially designed Scavenger X-pipe assembly.**
- **Everything included for a great fitting system.**
- **Limited Lifetime Warranty**
- **Dyno Tuned For Maximum Performance**
