

## Quarter Master® 7.25" 2004-2011 Subaru WRX STI 8-Leg Billet Clutch Kits

Lake Zurich, IL – Drivetrain performance leader develops 7.25" 2004-2011 Subaru WRX STI 8-Leg Billet Clutch Kits for stock, street/strip, drag, drifting and road racing applications.

Drawing on an extensive, race-winning heritage, Quarter Master® has developed two all new 7.25" Subaru WRX STI 8-Leg Billet Clutch Kits that perform well in a broad range of street performance and racing platforms. The kits include a two-disc 8-leg pull-to push conversion clutch, flywheel and hydraulic release bearing. These new clutches are engineered with a low moment of inertia and gear drive friction design that creates quicker, smoother shifts. And, they feature an open design that allows more efficient cooling during extended race use. Designed for easier and less expensive maintenance, the 7.25" Subaru WRX STI 8-Leg Billet Clutches are also completely racer rebuildable for a longer service life. Designed to handle up to 600 ft./lbs. of torque, they can be used in stock, street performance, drag, drifting and road racing applications. The race version of the kit features a flywheel weighing 8.4 lbs., while the street version's flywheel comes in at 10.3 lbs. Each kit provides dependable performance in shifting, consistent pedal feel and torque holding capacity.

### Quick Facts

**Product:** Quarter Master® 7.25" 2004-2011 Subaru WRX STI 8-Leg Billet Clutch Kits

**Part Number:** #28982R67 (Race) #28982P67 (Street)

**Street Price:** Call For Pricing

**140 Character Pitch:** Quarter Master® 7.25" 2004-2011 Subaru WRX STI 8-Leg Pull-To-Push Conversion Clutch Kits are designed to handle up to 600 ft./lbs. of torque

#### **Features & Benefits:**

- Race & street options available to fit your needs
- Open design allows for more efficient cooling, even during extended periods of race or street/strip use
- Very low Moment of Inertia (MOI) gear drive friction design creates quicker, smoother shifts
- Completely racer rebuildable frictions & floaters ensure a long, trouble-free service life
- Delivers the perfect balance of light weight, race-proven durability & high value
- Kits include clutch, flywheel & release bearing

### **About Quarter Master®**

Quarter Master® began operations in 1958, and since that date, Quarter Master® products have enjoyed a history of track-proven results. Quarter Master® products are built to exceed racers' demands and the need for reliability, high-performance and durability. Our passion and our commitment are to the racer's ultimate goal...winning! Quarter Master® joined the COMP Performance Group™ in early 2009 to become part of the largest family of automotive aftermarket performance manufacturers.
