

NEW PRODUCT RELEASE

For owners of the highly popular 1996-1999 GM Tahoe/Yukon SUVs, Flowmaster introduces the all-new stainless steel 817166 Force II Cat-back exhaust for the 5.7 liter-equipped vehicles. Ideal for those who travel long distances in their SUVs, or simply prefer a milder tone, this Force II system features our 50 Series Big Block muffler for a mild performance sound inside and out, while the single mandrel-bent 3.00" pipe assures maximum efficiency. Designed to bolt on behind the factory dual converters, and exiting in the factory location, this 50-state emissions legal system comes complete with all needed installation hardware, as well as a 3.50" polished, Flowmaster-embossed stainless tip for the finishing touch. As with all Flowmaster stainless systems, the 817166 is manufactured entirely in the US, and is covered by our Limited Lifetime Warranty for long term quality assurance. Please call 1-800-544-4761 or visit www.flowmastermufflers.com for more information.

- **Stainless Steel Construction**
