

For owners of many classic GM muscle cars, running exhaust manifolds has become very popular, fitting in with the 'restomod' movement. Flowmaster is excited to introduce our Chevy Big Block manifold down pipe kit, number 81071. Featuring a three-bolt OE-style connection and mandrel bends, these 409S stainless steel 2.50" down pipes fit various GM cars from the mid-1960's through the mid-1970's. These applications include 1965-69 Impala, 1965-73 Chevelle / El Camino, 1970-75 Monte Carlo / El Camino / Regal / Cutlass, 1965-69 GM B-body, 1968-69 Chevy II / Nova, and 1967-72 Camaros equipped with Big Block engines, providing a perfect link to the high performance exhaust system under the car. With the included 'donut' gaskets and illustrated instructions, these pipes are easily installed at home or by a professional. The kit features Flowmaster's Limited Lifetime Warranty providing long term quality assurance.

Please note: These pipes are designed for use without the OE heat-riser valve.

Please call 1-800-544-4761 or visit www.flowmastermufflers.com for more information.
