

FAST™ LSX_R™ Intake Manifold Fuel Rail & Fuel Line Connection Kits

FAST™ Fuel Line and Connection Kits offer high value and excellent performance for LSX™ and LSX_R™ Intake Manifolds

A revolutionary redesign in the construction of FAST™ Fuel Line and Connection Kits now offers high value fuel injection parts at a competitive price. These kits include special form fitted connectors that allow you to hook up your OEM fuel lines to all of the FAST™ billet fuel rail kits used with the LSX™ and LSX_R™ Intake Manifolds. Using these bolt-on kits ensures a perfect fit and reliable performance.

FAST™ billet fuel rails feature larger internal diameters to dampen pulses and provide increased fuel volume, so the fuel injectors never run dry. The machine-built rails and fittings feature superior strength and precise specifications to prevent leaks, cracks and improper fitment. High volume steel braided fuel lines ensure longevity and the high level of durability required for demanding high performance applications. These Fuel Line and Connection Kits fit 1998-02 F-bodies only; crossover lines fit all FAST™ LSX™ and LSX_R™ Intake Manifolds.

Quick Summary

Product: FAST™ Fuel Line and Connection Kits

Part Number: #54028G-KIT (LSX™/LSX_R™ Fuel Line Conversion Kit w/ Gauge); #54028-KIT (LSX™/LSX_R™ 1998-02 LS1 F-Body Fuel Line Conversion Kit); #54028FSL (LSX™/LSX_R™ 1998-02 F-Body -6AN Fuel Supply Line); #54028FRC (LSX™/LSX_R™ -8AN Fuel Rail Crossover Line); #54028 (LSX™/LSX_R™ 3/8 to -6AN Fuel System Conversion Line)

Features & Benefits:

- Bolt-on kits specially designed to hook OEM fuel lines to FAST™ billet fuel rails
- High volume steel braided lines ensure longevity & durability
- Machine built rails prevent leaks & ensure proper fitment
- Built to last in demanding, high performance applications
- High value & excellent performance at competitive pricing

#54028-KIT
