Powerhouse® Electric Die Grinder

The Electric Die Grinder from Powerhouse® puts the power to port and customize cylinder heads in the palm of your hand

The Powerhouse® Electric Die Grinder provides precise control for professional-quality porting, polishing and any other grinding operation. The heavy-duty, 2 amp grinder features a 1/4" collet, ball bearing construction and a top speed of 25,000 rpm. Weighing just 2 lbs., the Electric Die Grinder offers the perfect balance between heft for control and light overall weight so your arms won't become tired while working. At 11" long, two hands can be used to maximize precision for sensitive jobs. This is the Electric Die Grinder of choice for many of the top cylinder head porters around the country.

Powerhouse® also stocks a wide variety of cartridge rolls, cross buffs, mandrels, rotary stones and other useful attachments. Use the Powerhouse® Electric Die Grinder and professional porting supplies ensure a perfect fit on CNC-ported heads for ideal airflow distribution that optimizes engine performance and efficiency.

For more information about the Powerhouse® Electric Die Grinder, call us at 1-800-872-7223, or visit us online at www.powerhouseproducts.com.

Part #POW351550
