GM LS “Heads Off” Camshaft Degree Kit

Powerhouse® GM LS “Heads Off” Camshaft Degree Kits include everything you need to degree your LS Gen III/IV camshaft in one convenient package

Powerhouse® GM LS “Heads Off” Camshaft Degree Kits give you all the tools necessary to correct any minute errors and tolerances from your LS engine’s machining processes that can affect camshaft timing. Degreeing positions the camshaft for the best performance for your engine, so you get the most horsepower and torque possible out of your application.

“Heads Off” Degree Kits from Powerhouse® contain everything required to degree a camshaft when the cylinder heads are off the engine. They come with a 9” degree wheel, wire degree wheel pointer, heads off cam checking fixture, 0-1” travel dial indicator, 5” dial indicator extension, LS-type crankshaft socket, plate style TDC stop and instructions. All pieces are stored securely in the included foam-padded plastic case.

For more information about the Powerhouse® GM LS “Heads Off” Camshaft Degree Kit or any other Powerhouse® product, call us at 1-800-872-7223, or visit us online at www.powerhouseproducts.com.
