

Quarter Master[®] Circle Track T-Shirt

The new Quarter Master[®] Circle Track T-Shirt lets you tell the world what kind of racer you are and whose products you trust

With a modern design unlike any previous Quarter Master[®] shirt, the new Circle Track T-Shirt reaches out to all oval track racers and lets everyone know whose driveline products you use.

The back of this new t-shirt displays a large, aggressive-looking, full color graphic featuring stylized Modified, Dirt Late Model and Asphalt Late Model cars tearing up the track in front of a trendy distressed tribal design. Above the cars is the official Quarter Master[®] logo with the tagline "Racing Driveline Components." The front design of the shirt features another distressed Quarter Master[®] logo set in front of more popular tribal-style art. No one will mistake whose parts you're running.

The Circle Track T-Shirt is made from 100% preshrunk, Gildan Ultra Cotton material that will last for years and won't shrink in the wash. Its dark, charcoal gray color will hide dirt and stains, making it the perfect choice for wearing in the pits or while working on your car at home. When ordering, simply add your size to the end of the part number. Unisex shirt sizes Small through 3XL fit most men and women.
