USCS Modified Series Adds RHS® To Sponsor Lineup

Legendary manufacturer of cylinder head technology enters into sponsorship agreement with increasingly popular Modified racing series

A company founded by competitive performance enthusiasts, RHS® is constantly seeking new ways to meet the needs of racers and performance engine builders alike, which makes the company a perfect match for the USCS Modified Series. Under the recent sponsorship agreement, RHS® will give a \$50 product gift certificate to the winner of each weekly second heat race during the 2009 USCS Modified Series racing season.

Along with the RHS® Second Heat Race Award, the cylinder head manufacturer will also provide year-end banquet awards in the form of product gift certificates to the top three finishers (1st - \$500, 2nd - \$250, 3rd - \$125) in the 2009 USCS Modified Series point standings. The top ten finishers of the new USCS Weekly Series will also receive awards at the year-end banquet.

The agreement also states that RHS® will be named as the “Official Cylinder Heads” that power the 600+ horsepower racing engines of the USCS Modified Series cars for 2009. Only USCS Modified Series competitors that display the approved RHS® decal on their race cars will be eligible to reap the benefits of the 2009 contingency sponsorship awards.

A member of the COMP Performance Group™, RHS® designs and manufactures high performance cylinder heads and engine blocks. For more information about RHS® events or products, call us toll-free at 1-877-776-4323, or visit us online at www.racingheadservice.com.
