

TCI® Offers Active Military Discount

TCI® shows appreciation for members of the United States Armed Services with special Active Military Discount

After being a proud sponsor of Project American Heroes III presented by *Super Chevy* magazine, TCI® will continue to show appreciation for American service men and women by offering a special active military discount on all TCI® products.

With Project American Heroes, TCI® donated a 6x Six-Speed Automatic Transmission for the restoration of a 1970 Chevelle. Once the car was fully restored and tricked out, it was auctioned off with proceeds going to the Armed Forces Foundation. As an extension of using automobiles to help members of the armed services, TCI® wants to give directly to current servicemen by offering a special discount on all TCI® products, available to the brave men and women who are currently defending our nation.

TCI® understands that many servicemen are gearheads who relax by working on their cars, and others just need replacement parts to keep their current vehicle running. As a way of saying thank you for their service, TCI® will make it easier for our nation's heroes to get the parts they need.

Any active member of the United States Armed Forces may take advantage of this discount. However, he or she must call TCI® directly to do so; the offer is not available online or through third party retailers. Simply call the toll free number at 1-888-776-9824 and have your active military ID ready.

For more information about the TCI® Active Service Member Discount or any TCI® product, call us at 1-888-776-9824. And a very special thank you to all of our active military.
