## **TCI® 6x Six-Speed Automatic Transmission Kits For Chrysler Engines**

**Transmission technology leader introduces the world's first six-speed automatic transmission packages for Chrysler applications that is capable of handling up to 850 hp**

Chrysler owners can now take full advantage of the innovative TCI® 6x Six-Speed Transmission. TCI® has created new packages that include the original TCI® 6x Six-Speed Automatic Transmission and a bellhousing for either the Chrysler Small Block, 6-Bolt or 8-Bolt Big Block or Late Model 5.7L/6.1L Hemi engine. The TCI® 6x Six-Speed Automatic Transmission is a fully programmable transmission that gives drivers six forward gears (2.97, 2.23, 1.57, 1.18, 1.00, 0.75) for quicker acceleration and increased fuel economy at cruising speeds. Capable of handling up to 850 horsepower, and with a full manual option when utilizing a paddle shifter or bump shifter, these kits are perfect for Pro Touring, street and race vehicles.

These new kits allow you to bolt the innovative TCI® 6x Six-Speed Transmission to a Chrysler Small Block, 6-Bolt or 8-Bolt Big Block or Late Model 5.7L/6.1L Hemi without using an adapter plate. All kits include a 6x transmission with the appropriate Chrysler bellhousing, a flexplate, transmission control unit with harness, dipstick, fluid and cooler – there is no need to purchase a special flexplate or adapter. Additionally, the flexplates and bellhousings are SFI-approved. TCI® also offers 6x Six-Speed Transmission Packages which include the TCI® Paddle Shifter or Outlaw™ Shifter – for a complete turn-key drivetrain solution.

A fully programmable transmission control unit allows users to program specific shift points and line pressures, as well as converter lockup, giving Chrysler-powered vehicles the most functional and modern drivetrain combination on the market. In addition, each TCI® transmission utilizes the patented HDT (Heat Dissipating Technology™) Coating™ for cooler operating temperatures and improved drivetrain efficiency. TCI® engineers run each transmission across a computer-controlled transmission dyno to ensure proper line pressures and top notch performance. Individual serialized spec sheets containing test scores are included with each transmission.

### Quick Summary

**Product:** TCI® 6x Six-Speed Automatic Transmissions for Chrysler Engines

**Part Number:** #271601P10 (Small Block); #271601P13 (Small Block w/ Paddle Shifter); #271601P14 (Small Block w/ Outlaw™ Shifter); #271601P8 (6-Bolt Big Block); #271601P27 (6-Bolt Big Block w/ Paddle Shifter); #271601P28 (6-Bolt Big Block w/ Outlaw™ Shifter); #271601P9 (8-Bolt Big Block); #271601P29 (8-Bolt Big Block w/ Paddle Shifter); #271601P30 (8-Bolt Big Block w/ Outlaw™ Shifter); #271601P11 (5.7/6.1 Hemi); #271601P15 (5.7/6.1 Hemi w/ Paddle Shifter); #271601P16 (5.7/6.1 Hemi w/ Outlaw™ Shifter);

### Features & Benefits:

- Packages that include original 6x Six-Speed Automatic Transmission w/ Chrysler application bellhousings and are capable of 850 hp
- Includes 6x Six-Speed Transmission with appropriate Chrysler bellhousing, flexplate, transmission control unit, wiring harness, transmission cooler, dipstick & fluid
- Six forward gears & fully programmable shift points improve both acceleration & fuel economy
- Unique HDT (Heat Dissipating Technology™) Coating™ for cooler & more efficient operations
- Available for Chrysler Small Block, 6-Bolt or 8-Bolt Big Block & Late Model 5.7L/6.1L Hemi
- Packages that include the TCI Paddle Shifter or the Outlaw™ Shifter also available

### Part #271601P8
