

Wegner Motorsports Street Performance 377 LS Engines

New 377cid LS-style Chevrolet Small Block generates dyno-tested 580 hp and 500 ft./lbs. of torque

Looking for an easy and smart horsepower upgrade from your LS-family Small Block Chevy engine application? Why not try a Wegner Motorsports Street Performance 377 LS Crate Engine? The new Wegner Motorsport 377 line-up of crate engines features everything you need from a performance short block to three stages of upgrade, including the SP377P premium engine package. Each engine level uses brand new, premium Wegner Motorsports track-tested components.

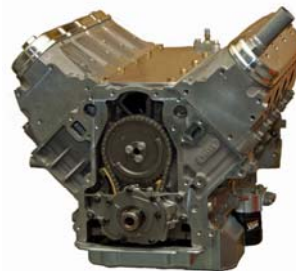

The Wegner Motorsports Street Performance 377 LS can be purchased as the short block (SP377S), long block (SP377T), complete engine (SP377C,) and premium engine (SP377P). All four of these engines utilize the new GM L92 engine block to ensure peak performance. A custom-finished stock crankshaft and LQ9 bushed connecting rods with ARP bolts and custom forged aluminum pistons are used in every engine. Dependent on the level of engine you select, appropriate custom-ported cylinder head assemblies are used, along with Wegner's hand-selected camshaft, valve train and induction system components. You can't purchase a better engine for your high performance street/strip application.
