COMP Cams® Now Offering Driven Racing Oil Products

Memphis, TN – Thanks to a new distribution partnership with Driven Racing Oil, COMP Cams® is making it easy for customers to get competition-proven lubrication products specifically designed for their application.

Beginning Sept. 5, COMP Cams® will become a distributor of Driven Racing Oil's complete lineup of oil, fuel additives, transmission and specialty fluids, greases and cleaners. Technical and sales staff have been trained to recommend products offering the protection needed for each customer vehicle, given its intended use.

“COMP customers will be the winners with this new program,” said Dean Harvey, Director of Internal Sales for COMP Cams®. “The Driven product line will complement the existing COMP brand of assembly lubes and oils, and offer our customers more choices across a broad range of applications to purchase lubricants and car care chemicals that best suit their needs.”

Add Driven To Each COMP Cams Order

About COMP Cams®
