

## COMP Cams® FSL™ Series Camshaft for GM L99 Engines

**Memphis, TN** – COMP Cams® is introducing the first performance aftermarket camshaft in almost 20 years to pass the stringent California Air Resources Board (CARB) Executive Order (E.O.) process for a domestic engine.

The CARB E.O.-pending camshaft offers drop-in convenience, with no valve spring change required, for Gen V (2010-15) Camaro SS GM L99 engines. Designed to work with factory Variable Valve Timing and require no computer reprogramming, the camshaft also features unique profiles on switching and non-switching cylinders for compatibility with Active Fuel Management systems. It provides the proven 30- to 50-HP improvement typical of smaller COMP Cams® camshafts in LS applications without the risk of non-compliance with emissions regulations.

The COMP Cams® FSL™ Series Camshaft for GM L99 Engines claimed the 2017 SEMA Best New Street Performance Product Award and is the first in a new series of 50-state legal camshafts from the absolute leader in valve train technology.

### Quick Facts

**Product:** COMP Cams® FSL™ Series Camshaft for GM L99 Engines

**Part Number:** 689-199-13

**Street Price:** \$464.59

**Social Media Pitch:** The COMP Cams® FSL™ Series Camshaft for GM L99 Engines increases performance while complying with emissions regulations

### **Features & Benefits:**

- CARB E.O. certification pending
- Drop-in convenience on Gen V (2010-15) Camaro SS GM L99 engines; no valve spring change required
- No computer reprogramming to work with factory VVT and AFM systems
- Improves performance by 30 to 50 HP

### **About COMP Cams®**

Founded in 1976 and based in Memphis, TN, COMP Cams® has become the automotive performance aftermarket's "Absolute Leader in Valve Train Technology." Our mission is to produce the highest-performing products possible, provide superior customer service and lead the industry in technological development.
